INDEPENDENT AUDITOR’S REPORT

TO THE SHAREHOLDERS OF SIA “HEDGE CAPITAL COMPANY”

Our Opinion on the Financial Statements

We have audited the accompanying financial statements of SIA “Hedge Capital Company” (“the Company”) set out on pages 6 to 22 of the accompanying annual report, which comprise:

- the balance sheet as at 31 December 2023,
- the profit and loss statement for the year then ended,
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of SIA “Hedge Capital Company” as at 31 December 2023, and of its financial performance for the year then ended in accordance with the ‘Law On the Annual Reports and Consolidated Annual Reports’ of the Republic of Latvia.

Basis for Opinion

In accordance with the Law on Audit Services of the Republic of Latvia we conducted our audit in accordance with International Standards on Auditing adopted in the Republic of Latvia (ISAs). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) and independence requirements included in the Law on Audit Services of the Republic of Latvia that are relevant to our audit of the financial statements in the Republic of Latvia. We have also fulfilled our other professional ethics responsibilities and objectivity requirements in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) and Law on Audit Services of the Republic of Latvia.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Reporting on Other Information

The Company’s management is responsible for the other information. The other information comprises:

- Information about the Company, as set out on page 3 of the accompanying Annual Report,
- the Management Report, as set out on pages 4 to 5 of the accompanying Annual Report.

Our opinion on the financial statements does not cover the other information included in the Annual Report, and we do not express any form of assurance conclusion thereon, except as described in the *Other reporting responsibilities in accordance with the legislation of the Republic of Latvia* section of our report.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed and in light of the knowledge and understanding of the entity and its environment obtained in the course of our audit, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Other reporting responsibilities in accordance with the legislation of the Republic of Latvia

In addition, in accordance with the Law on Audit Services of the Republic of Latvia with respect to the Management Report, our responsibility is to consider whether the Management Report is prepared in accordance with the requirements of the ‘Law On the Annual Reports and Consolidated Annual Reports’ of the Republic of Latvia.

Based solely on the work required to be undertaken in the course of our audit, in our opinion:

- the information given in the Management Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Management Report has been prepared in accordance with the requirements of the ‘Law On the Annual Reports and Consolidated Annual Reports’ of the Republic of Latvia.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with the ‘Law On the Annual Reports and Consolidated Annual Reports’ of the Republic of Latvia and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

MANAGEMENT REPORT**Main activites**

LLC "Hedge Capital Company", hereinafter - Company, provides credit granting services. NACE2 classification code - 64.92 Other credit granting.

Branches and representative offices abroad

The company has no branches and representative offices abroad.

Company's activity in the reporting year

In 2023, new restrictions entered into force in the Republic of Latvia, and many other countries and the existing ones have strengthened in connection with the ongoing hostilities in Ukraine. As a result of hostilities, the largest Ukrainian companies, which provided other countries, including the Republic of Latvia, with raw materials and other goods, have been paralysed. To limit hostilities and support Ukraine, the countries of the world have introduced significant sanctions against Russia and Belarus. As a result of these sanctions, the import of many raw materials and products and exports have been limited. Thus, significant inflation can be observed in the sectors affected by the crisis. Taking into account the changes in the national economy of Latvia caused by the war, we have taken preventive measures to promote the company's further development. To stabilise loan repayment rates and stabilise interest income, the policy of issuing new loans and debt recovery was improved, and various automated customer management tools were introduced, which helped not to increase the number of existing employees with a significantly larger customer portfolio. As a result, in 2023, the Company continued to demonstrate strong financial performance and achieved positive profitability. The company's total revenues, incl. other economic activity revenues and other interest revenues reached 1,274,156 euros. By implementing the business strategy and all planned measures, the following financial indicators have been achieved in 2023:

Profitability ratios	2023	2022
Gross profitability %	56%	55%
Earnings before tax (EBT)	7%	5%
Profitability on net profit %	7%	5%

Gross profitability has increased by 1 percentage point compared to 2022, and EBT increased by 2 percentage points. Significant growth of the loan portfolio allowed us to achieve higher profitability indicators.

Liquidity ratios

	31.12.2023
Current liquidity	6.13 coefficient
Total liquidity	6.13 coefficient

By the end of 2023 the Company's total liquidity ratio reached 6.13 mark.

Future prospects and future development

During 2023, the Company increased its loan portfolio by 26%, reaching 4.4 million euros. In 2024, the Company will continue to increase its loan portfolio using investments raised by P2P platforms Iuvo Group and Bondster. In addition, the Company is negotiating with several P2P platforms to diversify the investment flow. The management of the company highly values the trust of investors who provide significant funding for our business.

NordCard (SIA "Hedge Capital Company") has set itself the goal of becoming a non-bank lending company with the best customer service in the industry. The company has optimized costs, completed the product and significantly improved the quality of customer service. In the future, the main emphasis of the management will be on increasing the loan portfolio, optimising the evaluation process and further improving repayment indicators.

Financial risk management

The Company's financial risk management policy is described in financial statement attachment (note No. 24).

Information on research and development activities

MANAGEMENT REPORT

The Company has no costs for research and development activities during the reporting year.

The company's own shares or units

The company is not a shareholder.

Use of financial instruments

The Company's most significant financial instruments are loans from legal entities, trade receivables and cash and its equivalents. The main task of these financial instruments is to provide funding for the Company's business activities. The Company also has some other financial instruments, such as other receivables, trade payables and other creditors arising directly from its operations.

Events after the last day of the reporting year

The ongoing hostilities in Ukraine and the impact of sanctions are still relevant in 2024. Currently, the Company does not cooperate or plan to cooperate with partners from Russia, Ukraine, and Belarus, and the capital raised is obtained from Latvia or p2p platforms. The company's board and shareholders are only from Latvia and have not been affected by sanctions or political decisions related to the crisis. Also, the company's customers are only residents of Latvia because it operates only in Latvia. Therefore, the Company is not currently affected by the crisis, and the company's management does not foresee significant negative consequences in the near future.

At the moment, there is also no significant drop in borrowers' solvency, nor is it predicted that this could happen in 2024 because the company has not only implemented new borrower assessment procedures but also changed the debt recovery policy, which has allowed to achieve positive profitability in 2023, as also expects to achieve even higher profitability in 2024. We are not just weathering the storm but actively steering our course to strengthen the company's position in the market in the long term. We vigilantly monitor the crisis and political decisions in Latvia to mitigate their impact on NordCard. We firmly believe every crisis presents opportunities, and we are here to seize them.

The financial statement has been prepared on a going concern basis and management does not see any liquidity problems regarding the above mentioned.

Profit distribution for the reporting year

The reporting year ended with profit: 83 934 euro

Company balance sheet value: 4 524 960 euro

The company's 2023 profit covers the losses of previous years by reinvesting them in the company.

Statement of management responsibility

The Company's management is responsible for the preparation of the financial statement based on the original accounting records for each reporting period that give a true and fair view of the Company's financial situation at the end of the reporting year and of the results of its operations.

Management confirms that in preparing this financial statement for the period ended 31 December 2023, appropriate accounting policies have been used, their application has been consistent, and reasonable and prudent decisions have been made. The management confirms that the relevant accounting principles of the Republic of Latvia have been complied with and the financial statement has been prepared in accordance with the going concern principle.

Management is responsible for keeping proper accounting records, for safeguarding the Company's assets, and for preventing and detecting fraud and other irregularities.

Management confirms that it has provided the information and explanations necessary for the audit.

22 Details of off-balance sheet liabilities

At the end of the reporting year, the Company has not issued any pledge, guarantee or security.

23 Events after the end of the reporting year

The ongoing hostilities in Ukraine and the impact of sanctions are still relevant in 2024. Currently, the Company does not cooperate or plan to cooperate with partners from Russia, Ukraine, and Belarus, and the capital raised is obtained from Latvia or p2p platforms. The company's board and shareholders are only from Latvia and have not been affected by sanctions or political decisions related to the crisis. Also, the company's customers are only residents of Latvia because it operates only in Latvia. Therefore, the Company is not currently affected by the crisis, and the company's management does not foresee significant negative consequences in the near future.

At the moment, there is also no significant drop in borrowers' solvency, nor is it predicted that this could happen in 2024 because the company has not only implemented new borrower assessment procedures but also changed the debt recovery policy, which has allowed to achieve positive profitability in 2023, as also expects to achieve even higher profitability in 2024.

We are not just weathering the storm but actively steering our course to strengthen the company's position in the market in the long term. We vigilantly monitor the crisis and political decisions in Latvia to mitigate their impact on NordCard. We firmly believe every crisis presents opportunities, and we are here to seize them.

24 Financial risk management

The Company's most significant financial instruments are loans from legal entities, trade receivables and cash and its equivalents. The main task of these financial instruments is to provide funding for the Company's business activities. The Company also has some other financial instruments, such as other receivables, trade payables and other creditors arising directly from its operations.

**ANNEX TO THE FINANCIAL STATEMENT
FOR 2023**

The financial risks associated with the Company's financial instruments are mainly interest rate risk, liquidity risk and credit risk. The Company's management seeks to minimize the negative impact of potential financial risks on the Company's financial situation. The Company does not use derivative financial instruments for financial risk management.

Foreign currency exchange risk

The company operates in the local market and is minimally exposed to foreign currency exchange risk. With the current revenue-expenditure structure, additional control measures for exchange rate risk are not required. Additional risk mitigation mechanisms are not used as the total currency risk is assessed as minimal.

Interest rate risk

As the Company has loan liabilities, its cash-flow from financing activities is dependent on changes in market interest rates. The risk of floating interest rates has been eliminated because fixed interest rates have been set for the Company's borrowings.

Credit risk

The Company concentrates to minimize credit risk due to the specifics of its core business - the issuance of unsecured loans, which is associated with an increased risk of recovery of issued loans, which could cause short-term liquidity problems to meet the Company's liabilities on time. The Company's policy is to ensure maximum control procedures in the process of issuing and recovering loans, as well as in the creation of provisions, in order to ensure this, the "Loan application evaluation procedure" and "Procedure for recovery of overdue loan liabilities" have been developed.

Liquidity risk

The Company adheres to the precautionary principle in liquidity risk management and maintains a sufficient amount of money accordingly. The Company's management monitors liquidity reserves and makes operational forecasts based on expected cash-flow. The management believes that the Company will be able to provide a sufficient level of liquidity through its operating activities, but will be able to receive financing if necessary.
